TWO PER CENT.—Multiply the principal by the number of days to run, and divide by 180.

TWO AND ONE-HALF PER CENT.—Multiply by number of days, and divide by 146.

THREE PER CENT.—Multiply by number of days, and divide by 120.

THREE AND ONE-HALF PER CENT.—Multiply by number of days and divide by 104.

FOUR PER CENT.—Multiply by number of days, and divide by 90.

FIVE PER CENT.—Multiply by number of days, and divide by 72.

SIX PER CENT.—Multiply by number of days, and divide by 60.

SEVEN PER CENT.—Multiply by number of days and divide by 52.

EIGHT PER CENT.—Multiply by number of days, and divide by 45.

NINE PER CENT.—Multiply by number of days, and divide by 40.

TEN PER CENT.—Multiply by number of days, and divide by 36.

TWELVE PER CENT.—Multiply by number of days, and divide by 30.

FIFTEEN PER CENT.—Multiply by number of days, and divide by 24.

Demand notes are payable when presented, without grace, and bear legal interest after a demand, if not so written.

An endorser on a demand note can be held only for a limited time, variable in different states.

To be negotiable a note must either be made payable to bearer or be properly endorsed by the person to whose order it is made.

If the endorser desires to avoid responsibility, he can endorse "without recourse."

Notes becoming due on Sunday or a legal holiday are, as a rule, payable on the day following.

A note made on Sunday, or one dated ahead of its issue, is void, but it may be dated back.

If a note is altered in any way by the holder it becomes void.

A note made by a minor is void in some States and is voidable on judicial decision in others.

A contract with a minor or a lunatic is void.

If a note is not paid when due, the endorsers, if any, should be legally notified to be holden.

A note obtained by fraud or given by an intoxicated person cannot be collected.

It is a fraud to conceal a fraud.

Signatures with a lead pencil are good in law.

The acts of one partner bind the others.

Each individual in a partnership is responsible for all the debts of the firm except in the case of a special partnership.

The word "limited" in connection with firm names indicates a limitation of responsibility for each member.

An agreement without consideration of value is void.

"Value received" should be written in a note, but it is not necessary. When not written, it is presumed by law or may be shown by proof.

A consideration is not sufficient in law if it is illegal in its nature.

An endorser of a note is exempt from liability if not served with a notice of its dishonor within 24 hours of its non-payment.

If a letter containing notice of protest of non-payment be put into the Post Office, any miscarriage does not affect the party giving notice.

Notice of protest may be sent either to the place of business or residence of the party notified.

A receipt for money is not legally conclusive.

Points of Constitutional Law

Congress must meet at least once a year.
Congress may admit as many new States as desired.

One State cannot undo the act of another.

By the constitution every citizen is guaranteed a speedy trial by jury.

A power which is vested in Congress alone cannot be exercised by a State.

One State must respect the legal decisions and laws of another.

Congress cannot pass a law to punish for a crime already committed.

A person who commits a felony in one State cannot find refuge in another.

Bills for revenue can originate only in the House of Representatives, but the Senate may propose or concur with amendments.

Treaties with foreign powers are made by the President and ratified by the Senate.

The territories each have a delegate to Congress who is allowed the privilege of debate, but not the right to vote.

The Vice-President, who ex-officio presides over the Senate, has no vote in that body except in case of a tie ballot.

If the President holds a bill longer than ten days while Congress is in session it becomes a law without his signature.

An act of Congress cannot become a law over the President's veto except on a two-thirds vote of both Houses.

The House of Representatives may impeach the President for any crime, but the Senate has the sole power to try all impeachments.

An officer of the United States Government is not permitted to accept any title of nobility, order of honor, except with the permission of Congress.

Amendments to the Constitution of the United States require a two-thirds vote of each House of Congress, and must be ratified by at least three-fourths of the States.

The President of the United States must be at least 35 years of age; a Senator, 30; a Congressman, 25. The President must have been a resident within the United States fourteen years.

A naturalized citizen is not eligible to the office of President of the United States. A male child born in a foreign land to American parents has an equal chance to become the President with one born on American soil.

The United States shall guarantee to every State a republican form of government, and shall protect each of them against invasion, and on application of the Legislature or of the Executive (when the Legislature cannot be convened) against domestic trouble.

Good Rules for Business Men

Stick to chosen pursuits, but not to chosen methods.

Be content with small beginnings and develop them.

Be wary of dealing with unsuccessful men.

Be cautious, but when a bargain is made stick to it.

Keep down expenses, but don't be stingy.

Make friends, but not favorites.

Don't take new risks to retrieve old losses.

Stop a bad account at once.

Make plans ahead, but don't make them in cast iron.

Don't tell what you are going to do until you have done it.

EXPLANATION OF SMALL CRAFT, STORM, AND HURRICANE WARNINGS

The Small Craft Warning—A red pennant indicates that moderately strong winds that will interfere with the safe operation of small craft are expected.

The Northeast Storm Warning—A red pennant *above* a square red flag with black center displayed by day, or two red lanterns, one above the other, displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *northeast*.

The Southeast Storm Warning—A red pennant *below* a square red flag with black center displayed by day, or one red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *southeast*.

The Southwest Storm Warning—A white pennant *below* a square red flag with black center displayed by day, or a white lantern *below* a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *southwest*.

The Northwest Storm Warning—A white pennant *above* a square red flag with black center displayed by day, or a white lantern *above* a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *northwest*.

Hurricane, or Whole Gale Warning—Two square flags, red with black centers, one above the other, displayed by day, or two red lanterns, with a white lantern between, displayed by night, indicates the approach of a tropical hurricane, or one of the extremely severe and dangerous storms which occasionally occur.

Weather Wisdom

Sunset Colors: A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise with clouds lowering later in the morning, also indicates rain.

Sky Color: A deep blue color of the sky, even when seen through clouds, indicates fair weather; a glowing whiteness an approaching storm.

Visibility: Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars indicate rain.

Fogs: Fogs indicate settled weather. A morning fog usually breaks away before noon.

Frost: The first frost and the last frost are usually preceded by a temperature very much above the mean.

Halo (Sun Dogs): By halo we mean the large circles, or part of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

Corona: By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

Rainbows: A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather.

Help in Case of Accident

KEEP COOL—SEND FOR A PHYSICIAN

WOUNDS—Remove patient to a quiet, airy place. Have hot and cold water, several basins, clean towels, cloth and soap. Apply antiseptic treatment as follows:

Thoroughly cleanse your own hands and nails; then cleanse the wounds with some antiseptic. The most easily procured is salt and water. Put a handful of salt in a quart of water and use freely. After the wound is cleansed, it must then be protected from new germs by some covering made germ free by baking, boiling, or ironing. After the salt solution has been carefully used, apply strips of gauze soaked in warm water which has been boiled. This will leave the wound in good condition.

If a more active antiseptic than salt, such as Carbolic Acid (1 per cent) or Bichloride of Mercury (1 part to 2000 of water), is available it should be used.

ARTIFICIAL RESPIRATION—When the patient is removed from the water, gas, smoke, or electric contact, **get to work at once with your own hands.**

Lay the patient on his stomach. Extend one arm directly over head. Bend the other arm at elbow, and rest patient's cheek on hand, to keep the nose and mouth off the ground and free for breathing.

Kneel, facing forward, and straddling patient's legs just above the knees. Place palms of hands on each side of back, just above the belt line, and about four inches apart, thumbs and fingers together, the little fingers over and following the line of the lowest ribs, and the tips of fingers just out of sight.

With arms straight lean gradually forward, pressing downward and forward and counting slowly, one, two, three. Snap your hands sideways, off patient's back, Swing your body back, counting slowly, four, five. Rest. Straighten arms and repeat pressure.

Three movements straight arm pressure (shoulder behind hands to exert forward pressure), **quick release and swing back. Keep up work steadily until breathing begins and continues naturally.**

When helpers arrive put them to work; send for physician; clean patient's mouth of obstructions; stimulate reflexes; loosen tight clothing; rub legs and body toward heart; supply clothing and other heated articles and relieve operator when tired. Place aromatic spirits of ammonia near patient's nose at frequent intervals. When patient begins to breathe naturally, and can swallow, give a teaspoonful of aromatic spirits of ammonia in half glass of water, or some hot coffee or tea.

Don't get discouraged. Stick to it for two even three hours if necessary.

IN CASE OF POISON

First. Send for a physician.

Second. Empty the stomach by an emetic—a teaspoonful of mustard or two teaspoonfuls of common salt in tepid water; teaspoonful of alum in water. Tickle the throat with a feather or finger. Apply antidotes as follows:

1. Emetic. If patient is drowsy, give cold coffee; keep awake and moving.

2. Emetic. Warm extremities; give large doses of magnesia; raw eggs; lime water; milk flour and water.

3. White of eggs, milk, flour and water; give largely for ten minutes, then give emetic and follow by mild stimulants.

4. Mustard emetic followed by Epsom salt.

5. Emetic. Give warm water to relieve vomiting; tea to tablespoonful baking powder saleratus, chalk, lime or magnesia, followed by milk and white of egg.

6. Emetic. Baking powder, etc., as in No. 5, followed by linseed tea or slippery elm tea.

7. Emetic. Followed by brandy or by teaspoonful ammonia in pint of water.

8. Large quantities of water followed by large doses of magnesia or lime.

9. Drink diluted vinegar or lemon juice, follow with tablespoonful castor oil, cream, sweet oil or linseed oil; then with teaspoonful doses an hour apart for three hours.

10. Fresh air, inhalation of ammonia; warm extremities; artificial breathing, as in drowning.
